

Variables description	Type of variable	Description
load_port	string	Name of load port
load_country	string	Country of loading port
load_zone	string	Area of load port as defined by AXS
discharge_start_date	string	Date of discharge starting
load_end_date	string	Date of loading completion
discharge_port	string	Name of discharging port
discharge_country	string	Country of discharging port
discharge_zone	string	Area of discharging port as defined by AXS
vsl_type	string	Type of vessel
commodity	string	Name of commodity transported
voy_intake_mt	integer64	Metric tons of commodity transported
load_draft	float64	Loading draft
load_duration	float64	Loading operations duration
discharge_draft	float64	Discharge draft
